University of Essex | Online

Unit 4 - Reading

Course: MSc Computer Science

Module: Software Engineering Project Management

Assignment: ePortfolio

Date: Saturday 19th February 2022

Student ID: 126853

Required Reading:

Abeykoon, V. et al. (2020) Data Engineering for HPC with Python. IEEE/ACM 9th Workshop on Python for High-Performance and Scientific Computing 13-21.

IEEE Spectrum (n.d.) Homepage.

Mokoena, T. S., Pretorius, J. H. C., and Van Wyngaard, C. J. (2013) Triple constraint considerations in the management of construction projects. IEEE International Conference on Industrial Engineering and Engineering Management, 813-817.

OpenDSA (n.d.) Data Structures and Algorithms. Open DSA.

Ravindra, K. (2019) Selecting a Right Data Structure 1.

Ravindra, K. (2019) Selecting a Right Data Structure 2.

Volere (n.d.) Requirements Specification Template.
